What Happens to Trash?

The garbage truck is only the beginning!

1. Into the garbage bin

Trash is collected from our homes and neighborhoods.

2. Off in the truck!

A garbage truck takes trash to a transfer station.

3. A longer journey

Seattle's garbage travels by train to a landfill in Oregon.

4. Stored in a landfill

Trash is packed down and covered. It does not just disappear!

We can make less trash!

Use less. Reuse more. Recycle and compost the right things.
